

# MAKING MEMORIES

Great Events UK is a professional travel and destination management organization serving London, Cambridge and the south of England. We put our unrivaled local knowledge, resources and team of experts at your disposal to create truly memorable experiences that your clients won't forget.

## OUR SERVICES

### Groups and Tours

We specialize in creating totally unique, fully managed special interest tours for UK bound leisure groups. Let us know about your group and their specific interests and we can build a one of a kind program that is unlike anything else on the market.

### Conferences and Meetings

We can take care of all aspects of your next meeting or conference; venue sourcing, accommodation management, entertainment, dining, transfers, team building and extra activities.

## Team Building

Whether you are looking to foster leadership, problem solving or collaboration, tell us a bit about your objectives, the group, their interests, industry, budget and background. We then create a custom-made program of team building experiences.
